Introducing TozziniFreire: Brazil's Legal Services Innovator

Since 1976, TozziniFreire has distinguished itself as a premier, full-service law firm by consistently providing exceptional legal expertise to domestic and international companies in a wide variety of business sectors. Along these years, we have played a major role in many of the most significant transactions in the Brazilian market.

While being the youngest firm among the major legal players in Latin America, we have also enjoyed the fastest growth, and with the result that we are now the largest firm. But we do not consider size our strongest attribute: what has driven the firm's growth and differentiated us in the legal industry is our obsession in delivering results for our clients. Their achievements are the foundation on which our own success relies.

We see ourselves as one cohesive entity and act accordingly. In other words, there are no regional partners and no "associated" or "correspondent" offices. With fully-owned offices in several cities in Brazil, we are able to guarantee our clients the same outstanding services and one-firm resource throughout the country.

TozziniFreire has extensive experience in assisting international companies in setting up their enterprises or ventures in Brazil. Our areas of specialization include corporate transactions, publicly held companies, civil and commercial litigation, white collar crimes, arbitration, international and local contracts, international trade, import and export, corporate finance, project finance, banking, capital and financial market transactions, debt restructuring and workouts, mergers and acquisitions, antitrust, taxation, securities law, intellectual property, sustainability, corporate image management, compliance, film, media & entertainment, sports law, real estate, environmental law, labor relations, immigration, and public and administrative law. Our industry focused groups include: insurance, financial institutions, telecommunications, agribusiness, oil & gas, energy, bioenergy/ethanol, life sciences, climate change and carbon market, water and sewage, toll roads, mining and information technology.

*For further information about TozziniFreire Advogados, please contact **José Luis de Salles Freire** or **Marcio Mello Silva Baptista** in São Paulo.*
